Article 3 taken from table. (Reports of Committees.)

Willis P. Howard of the Joint Board reported for that Board on the work done to establish a new street from Massachusetts

Avenue to Mystic Street. The report of the Board (given verbally), was accepted by the meeting as progressive.

Jacob Bitzer, Chairman of the High School Building Committee, presented the following report of the Committee, and the same was accepted, ordered filed and the Committee given a vote of thanks for the efficient manner in which they had carried out the desires of the Town. The report was as follows:

*o the Citizens of Arlington:*

At the Town Meeting of September 18, 1914, acting under Article 3 of the Warrant, it was voted that \$186,000 be appropriated for the erection of a High School Building on the Schouler Court Site, and that the Committee appointed at the Town Meeting of April 9, 1914, to procure plans and specifications for such building, be continued as the High School Building Committee.

Acting under authority conferred by the above action, the Committee proceeded to enter into contract with the Light, Heat and Power Company of Boston, Mass., for the construction of the proposed building for the sum of \$156,530.

This was the lowest bid received from thirteen bidders, all being opened by the Committee publicly, on August 28, 1914.

The contract was signed by the respective parties October 2, 1914.

Ground was broken on October 7, 1914, and the building was sufficiently completed to permit of occupancy for school purposes on September 13, 1915.

Ample room is provided for 878 pupils, and with some slight rearrangement approximately 1000 can be accommodated.

At the Town Meeting of May 20, 1915, the Building Committee was granted \$18,500 for equipment and \$11,000 for grading the surrounding grounds.

The Committee wishes to acknowledge the very material assistance rendered by the School Committee and the Superintendent of Schools in preparing a full and carefully detailed schedule of equipment required and appreciates their hearty and general co-operation.

As shown in the appended financial statement, the total appropriation and approximate cost of erecting and furnishing the building is \$204,500, which, based on capacity of 1000 pupils gives

\$204 as the cost per pupil. This figure is believed by your Committee to be the lowest cost for this type of building in the Metropolitan District.

Owing to the unavoidable delay in securing the complete equipment for the building, it was deemed inadvisable to hold any formal dedication.

Your Committee has endeavored to construct a dignified building from which the Town may realize the greatest educational value for the money expended. In this endeavor, they believe that a fair measure of success has been obtained and that the building which is about to be turned over to the Town will afford facilities for keeping the educational opportunities in Arlington abreast of any in the Commonwealth.

Mr. Joseph C. Holmes presented the report of the Committee appointed for the revaluation of all Town property. The Committee as appointed, consisted of Joseph C. Holmes, Louis B. Carr, and William A. Muller. By the death of Mr. Carr, shortly after his appointment, the Committee and the Town were deprived of the services of this faithful, conscientious and far-sighted citizen, upon whose judgment the Town had grown to rely. The report, as presented, was accepted and ordered embodied in the next Annual Town Report. The following is the report:

Article 2 taken up. (Reports of Committees.)

Loren W. Marsh, Chairman of the Finance Committee of Twenty-one, presented the report of the Committee in printed form, the same being distributed to the voters present. The report was received.

On motion of Mr. Marsh it was voted that the remaining articles in the warrant be now taken up, and that the recommendations made under these articles by the Finance Committee be considered as now before the meeting to be voted for without further motion, separately and in the order in which they appear in said report.

Article 3 taken up. (Repairs in old Town Hall Building.)

Voted: That a sum not exceeding \$600 be appropriated for repairs in the old Town Hall Building, of which sum \$537 be transferred from "Old Town House Account" and the balance of \$63 be transferred from the "Sale of Offal Account."

Article 4 taken up. (School Accommodations.)

The Committee submitted an extended report under this article, covering all propositions submitted to it, for a relief of the conditions existing and to be expected, and made the following recommendation, which was:

Voted: That the Moderator appoint a special committee, composed of five members, to make a study of the present and anticipated requirements for housing our school children over a period of five years or more. This Committee to submit in print their findings at a Town Meeting not later than November, 1916. This Committee to be composed of one member from the School Committee, one from the Town Planning Board, and three citizens.

This report is to include recommendations regarding the possibility and advisability of minor alterations in existing buildings to accommodate the immediate urgent needs and to include a recommendation for the erection of buildings and the purchase of land for school purposes as may be indicated by their study of future requirements. This Committee in their consideration of the matter to give due consideration to any proposed changes in the system of instruction, if such there be, as may be outlined by the School Committee, and to report the effect of such changes in relation to housing and that the sum of two hundred (200) dollars be appropriated for the use of this Committee, this sum to be taken from sidewalk assessments now in the Treasury. The Moderator appointed the following citizens to serve on this Committee: Alton F. Tupper, James P. Parmenter, Frank W. Hodgdon, Robert N. Turner and Joseph C. Holmes. Mr. Holmes being unable to serve, John R. Foster was appointed to fill the vacancy.

Article 6 taken up. (Hawkers and Pedlers.)

After a discussion of the by-laws submitted for approval, a conflict of authority being apparent, it was,

Voted: That the subject matter of this article be referred back to the Committee of Twenty-one, to report at a later meeting and with instructions to confine the authority under the proposed by-laws to one Board.

Article 7 taken up. (Revision of Building Laws.)

Articles 8 and 9 taken up together. (Sale and purchase of land for and to the Town.)

Under this article Mr. Hodgdon, Chairman of the Committee, appointed at the March Meeting to report on the sale of Town property, reported as follows, the report being offered and accepted as a partial report:

*To the Town of Arlington:* The Committee appointed at the Annual March Meeting of 1916, to report on sale of Town property, reports in part as follows:

In relation to the Hobbs Court property, we recommend that if a strip of land along the brook can be obtained or retained sufficient to allow the laying out of a highway across the property, in which a main sewer can be built, that it will be to the advantage of the Town to sell the remaining portion of the lot, if a reasonable price can be secured, provided another lot is acquired in a more central location and better adapted to the use of the Public Works Department. The Board of Public Works states that its work can be carried on in a more efficient manner if its teams and tools are all housed and cared for in one location.

A majority of the Board do not consider the Hobbs Court location a proper one for this purpose, and neither do any of the Board consider the old Almshouse location a proper one. Your Committee is not ready at the present time to report on all the various Town lots, but are unanimous in the above recommendations that a portion of the Hobbs Court property, as above outlined be sold and that the proceeds of the Town sales be used in purchasing a proper location as a headquarters for the Public Works Department, near the center of the Town. The Committee has looked over other properties, and has consulted the citizens and organizations, but is not, as yet, ready to report on them. The sale of Mystic Street property to be conditional on not placing more than three (3) houses on the property, all to be single family houses of value not less than \$5000 designed and construction supervised by an architect.

Signed, Claude A. Palmer, Ernest R. Kimball, and Frank W. Hodgdon.

This report of the Committee was laid on the table pending a difference of opinion as to the conditions that should be attached to any sale of the property known as the Hobbs Court property.

A recess of ten minutes was granted, in order to enable the

parties differing to meet with the Town Counsel, and determine what form the vote should take.

During the interval Article 10 was taken up.

Article 10 taken up. (Additional Appropriation for Summer Street Extension.)

Voted (by a two-thirds vote): That the sum of \$5500 be appropriated for the construction of Summer Street Extension, and the Selectmen are hereby authorized to raise the aforesaid sum by issuing a note of the Town payable in one year from date, with interest not exceeding four per cent, payable semi-annually, to be designated on the face thereof "Summer Street Extension Loan of 1916" and to be issued in accordance with the provisions of Chapter 616 of the Acts of 1910, and acts in amendment thereof, or in addition thereto.

Articles 8 and 9 again taken up.

The ten minutes' recess, taken to consider the form of vote to be presented under these articles, having expired and all parties agreeing on the form, these articles (8 and 9) were again taken up and it was

Voted (by a two-thirds vote): That the Selectmen be and are hereby authorized, in the name and behalf of the Town, to sell and convey either to the State or the Trustees of the Amherst Agricultural College the property now owned by the Town and known as the "Town Yard" or "Hobbs Court" property, excepting the offal house thereon, and such land as may be necessary therefor, and reserving to the Town and its successors a right of way from Massachusetts Avenue to said offal house and also reserving a strip of land on the southerly side of said lot for future municipal purposes, for a sum not less than twenty-five hundred (2500) dollars; and in the event of a sale of the said Town Yard property as aforesaid, but not otherwise, the Selectmen are hereby authorized in behalf of the Town to purchase, or to take by eminent domain, for municipal purposes, a certain parcel of land, situated on the southerly side of the Boston & Maine Railroad location, near Mill Street containing about 4.23 acres, and now owned by Annie M. Easte and in the event of a purchase to pay therefor a sum not exceeding four thousand two hundred thirty (4230) dollars; said sum to be raised by issuing a note payable in one year

from date with interest not exceeding four per cent per annum, payable semi-annually.

Said note to be designated on the face thereof "Land Purchase of 1916" and to be issued in accordance with the provisions of Chapter 616 of the Acts of 1910, and all acts in amendment thereof, or in addition thereto.

All business calling the meeting having been transacted it was voted that the meeting be dissolved. Meeting dissolved at nine o'clock. Number of citizens attending the meeting 223.

#### CONSTABLE'S RETURN.

Arlington, September 25, 1916.

#### MIDDLESEX COUNTY.

By virtue of this Warrant I have notified and warned the inhabitants of the Town of Arlington, qualified as the law directs, to vote in primaries, to meet at the time and place and for the purposes herein named, by causing a printed attested copy to be left at every dwelling house in the Town, and also by posting an attested copy at the doors of the Town Hall seven days at least before said day of meeting.

WILLIAM T. CANNIFF, *Constable of Arlington.*

Pursuant to the foregoing Warrant, the voters of the Town of Arlington qualified to vote in primaries, met in the Town Hall, the twenty-sixth day of September, in the year of our Lord one thousand nine hundred and sixteen, and were called to order at two (2) o'clock in the afternoon by Thomas J. Donnelly, Chairman of the Board of Selectmen, who requested the Town Clerk to read the warrant calling the meeting and the return thereon of the Constable who served the same upon the inhabitants.

Under the law governing primaries Mr. Donnelly served as Chairman of the meeting.

The law governing elections prevailed and the Town Hall was fitted up as a polling place, a space railed off and forty steel booths provided for the use of the voters to examine and mark their ballots.

Each booth was supplied with suitable facilities for the purpose. Cards of instructions to and penalties on voters were posted in accordance with law.

The following election or primary officers, having been appointed by the Selectmen, were sworn to the faithful performance of their duties by the Town Clerk and assigned as follows:

Ballot Clerks — Joseph J. Duffy, William Adams, Oscar A. Schnetzer and David T. Dale.

Checkers at Ballot Boxes — Frank Y. Wellington, George H. Tewksbury, Arthur J. Hendrick and Charles A. Paine.

Inspectors — P. Henry Casey, William P. Slattery, Chester E. Hoyt and Frank E. Kenney.

Sealed packages of ballots supplied by the Commonwealth were then delivered to the election officers by the Town Clerk.

These ballots were publicly opened and given to the ballot clerks for distribution to the voters.

Specimen ballots, cards of instructions to and penalties on voters were conspicuously posted for the information of voters as in the case of a State or Town election.

The ballot boxes were examined by the presiding officer and the Town Clerk, and were found to be empty and the register set at zero.

Lists of registered voters were supplied to the election officers by the registrars of voters.

At six (6) minutes after two (2) o'clock, the polls were declared open and they remained open until eight (8) o'clock, at which time, after due notice they were declared closed.

In accordance with law the ballot boxes were not opened until the close of the polls.

The ballot clerks and tellers counted the names checked by them and found the number to agree with the number registered by the ballot boxes, six hundred fifty-five (655).

The unused ballots (687) after being counted by the ballot clerks were sealed up and delivered to the Town Clerk, together with the number cast (2813), these two amounts accounting for the total number of ballots received from the Secretary of the Commonwealth, viz.: 3500.

TAXABLE PROPERTY, STATE AND COUNTY TAXES  
AND TAX RATES.

The real and personal taxable property in the Town as assessed and reported by the Assessors for the year 1916, was as follows:

<i>Personal Property</i>		<i>Real Estate</i>	
<i>1915</i>	<i>1916</i>	<i>1915</i>	<i>1916</i>
\$2,417,831.00	\$3,008,992.00	\$14,879,529.00	\$16,306,167.00

The above figures show an increase in personal property of \$591,161 and an increase in real property of \$1,426,638 over 1915, making the total taxable property of the Town in 1916 both real and personal \$19,315,159, an increase of \$2,017,799 over that of 1915.

The Board is pleased to note that the State Tax for 1916 was reduced from \$35,197.50 in 1915, to \$29,680 in 1916. This shows a reduction in the State Tax of \$5,517.50 and while the other taxes levied, such as County, Metropolitan Sewer, Park and Water taxes, have been increased, the total amount levied for all State and County purposes is \$95,826.78 or \$1,861.02 less than in 1915. The taxes levied for State and County purposes for 1916 were as follows:

	<i>1916</i>	<i>1915</i>	<i>Increase</i>
State Tax	\$29,680.00	\$35,197.50	\$5,517.50*
County Tax	19,153.74	18,300.00	853.74
Metropolitan Sewer Tax	14,903.84	14,540.00	363.84
Metropolitan Park Tax	9,135.40	7,904.05	1,231.35
Metropolitan Water Tax	18,118.96	17,850.63	268.33
Charles River Basin Tax	1,985.89	1,145.20	840.69
Alewife Brook Tax	2,510.47	2,567.75	57.28*

\*Decrease.

	1916	1915	<i>Increase</i>
Fire Prevention Tax	\$261.38	\$106.07	\$155.31
Soldiers' Exemption Tax	77.10		77.10
*Wellington Bridge Tax			
*Nantasket Beach Tax			
	<hr/> \$95,826.78	<hr/> \$97,687.80	<hr/> \$1,861.02

As will be seen from the foregoing tables the amount paid in taxes for State, Metropolitan and County purposes is \$1,861.02 less than in 1915. This fact together with the economical administration of the various departments of the Town enabled the Assessors to reduce our tax rate from \$21.80 in 1915 to \$21.30 in 1916. In view of the foregoing facts the Board deems it only right and proper that mention should be made at this time of the careful and economical manner in which the various departments, particularly those coming under the supervision of the Board, have endeavored to keep within the appropriation allowed, and at the same time to administer the affairs of the Departments without impairing the efficiency that the Board and the citizens desire.

With the large number of buildings being erected in our Town and the consequent increase in the population it is but fair to assume that the yearly appropriation for the maintenance of these departments must necessarily increase, but the Board are of the opinion that, with a continuance of the careful and economical administration of these departments, the increases will only be in proportion to the increased population. During the past year, over \$1,250,000 was invested in new buildings. With approximately this increase for some few years to come it would mean that the Town would be given the taxes of over one million dollars additional each year on real property, or about \$21,000 per year. It would seem that this yearly increase should properly care for the natural increases in the maintenance of our departments, leaving larger undertakings, such as the erection of new buildings, etc., to be cared for by serial notes. The Board would, therefore, again urge a continuance of an economical administration of all our departments to the end that we may continue

\*Included in Park Tax.

to keep our tax rate at about \$20, without impairing the efficiency of the service.

CORPORATION AND BANK TAX RECEIVED BY THE TOWN.

	1916	1915	Increase
Corporation and Bank Tax	\$20,352.41	\$17,914.84	\$2,437.47
Street Railway Tax	8,752.94	9,406.77	653.83*
Boston Elevated Ry. Tax	3,442.59	3,253.63	188.96
Bay State St. Ry. Tax	387.26	356.51	30.75
Middlesex Street Ry. Tax	126.94	122.01	4.93
	<hr/>	<hr/>	<hr/>
	\$33,062.14	\$31,053.86	\$2,008.28

From the above figures it will be seen that the Town received from these sources in 1916 \$2,008.28 more than in 1915, and this fact also contributed in reducing our Tax Rate for the past year. It is to be hoped that even a larger increase may be received the coming year.

OUTSIDE POOR DEPARTMENT.

The work of this department differs little from year to year, changing only in the number of cases aided. As the population of the Town increases it is only reasonable to assume that the number requiring aid will also increase. As has been stated in previous reports it is the policy of the Board to examine each case applying for aid, and to determine from this examination whether the applicant is a proper person to be aided, and if so the amount and nature of such aid. This is not always an easy task, as it is, at times, difficult to determine when and where to bestow aid that will prove most effective and beneficial to the applicant, and at the same time judiciously expend the funds of the Town. Recipients of aid are not always appreciative of the aid rendered, but the Board are inclined to believe from experiences in handling these cases, that it is perhaps better for the Town, through its officials, to err on the liberal, rather than on the penurious side. In most of the cases aided it is not the parents or grown persons of the family whom the Board consider most, but the little children, who will, sooner or later, be the citizens of our Town and of the Nation. To these children,

\*Decrease.

dependent as they are on the Town for sustenance and education, the Board are inclined to render all aid possible, and consistent with law, in order that they may be properly fitted for the life work before them.

It is the policy of the Board to aid all deserving persons, requiring aid, and to discontinue that aid when the necessity for it ceases.

The Board does not and will not encourage idleness, lack of the sense of obligation, or an endeavor to shift the responsibilities that properly belong to the applicant.

For the benefit of the citizens the following tables, showing the amount expended in 1916 and a comparative table showing the amounts expended during the past ten years for the care of the poor at home and elsewhere is appended.

*1916*

Amount Appropriated	\$8,000.00
Reimbursement from State and other towns	1,885.64
Received from Income of Funds	1,198.06
	<hr/>
Total	\$11,083.73

The totals expended (monies received from above sources) during the past ten years were as follows:

	<i>Population</i>	<i>Amount expended</i>	<i>Amount per capita</i>
1907	8,960	\$6,885.00	.77
1908	9,610	7,185.00	.75
1909	10,000	6,405.00	.64
1910	10,650	6,731.00	.64
1911	11,300	6,903.00	.62
1912	11,950	7,339.00	.62
1913	12,600	6,860.00	.55
*1914	13,250	8,450.00	.64
*1915	14,880	9,974.00	.68
*1916	15,500	11,083.00	.72

From the above figures it will be seen that, while the population of the Town has grown enormously, the amount appropriated

\*These years are the years the Mothers' Pension Act went into effect.

and spent each year for the care of the poor and those dependent upon us through illness and misfortune has not grown in like proportion.

The Board desires to express to the ladies of the Associated Charities and to all other charitable organizations in the Town their sincere appreciation of the work done during the year by these societies in relieving suffering and want wherever found and in aiding the Board in the discharge of its duties in caring for the unfortunates.

#### POLICE DEPARTMENT.

In accordance with the recommendations of the Board in the report of 1915 two additional patrolmen were added to the department on July 1, 1916. These two men are Fred M. Kirlin and Charles E. Carroll and were appointed after a civil service examination, they receiving the highest marks in the examination.

The personnel of the department consists, at the present time, of a Chief, Lieutenant, Sergeant and eleven patrolmen.

A perusal of the report of the Chief of the department will show the many duties the department is called upon to perform. As the population of the Town increases, these duties must of necessity increase, and the Board are pleased to report that during the year the efficiency of the department has been kept up to the high standard of previous years.

The Board are at all times in close touch with the work of the department, requiring the Chief to render a weekly account of the business of the preceding week.

In view of the great number of motor vehicles traversing our main thoroughfare (Massachusetts Avenue) and the danger by reason of these vehicles to our citizens and especially to the children, the Board strongly advise the appointment of at least three additional patrolmen to act in the capacity of traffic officers. These officers in the opinion of the Board should be stationed as follows: One at the center of the Town to aid the officers now doing this work at Pleasant, Mystic and Medford Streets. One at Lake and Winter Streets and Massachusetts Avenue and one at Park Avenue and Massachusetts Avenue.

These last two would mean the care of the children going to and coming from the Crosby and Locke Schools. It seems to the

Board that this provision should be made, as the loss of one life would mean a deserved censure on the government of the Town, a censure at this time the Board strongly advises the citizens to avoid.

In accordance with the recommendation made by the Board last year the wages of the patrolmen were increased on July 1, 1916, from \$3 per day to \$3.20 per day.

#### POLICE AUTOMOBILE AMBULANCE.

In accordance with the request of the Chief of the department and the recommendation of the Board, the Town voted to authorize the purchase of a combination patrol and ambulance auto.

This adjunct to the department was purchased and installed in April and the results amply justify the expense (\$657). During the year, ninety-seven accident cases were cared for by the department, many of which were of a very serious nature (five proving fatal) and requiring prompt service and attention. The police auto was used in connection with these cases to advantage. The auto has also been used wherever necessary by the Overseers of the Poor in caring promptly for urgent cases and in removing persons to the State Hospital at Tewksbury and to the Somerville Poor Farm.

The efficiency of the department is best illustrated by the statement that we have at this time no place of questionable character within our limits and that during the year but two arrests (both convicted) were made for the sale of intoxicating liquor. For a Town of over sixteen thousand inhabitants this is indeed a praiseworthy record.

For further details of the work of the department reference is made to the report of the Chief of Police.

For details as to expenditures of the department see Auditor's report under Police Department.

#### FIRE DEPARTMENT.

The appropriation for this department for 1916 was sixteen thousand dollars (\$16,000). The total amount expended was fifteen thousand eight hundred fifty-eight dollars (\$15,858). Of this sum thirteen thousand seven hundred eighty-eight dollars (\$13,788) was for salaries of Engineers, Permanent and Call Men.

The balance was used for telephone service, hose, lighting, auto supplies, hay and grain, repairs and general incidentals.

The work of the department continues to be of a most efficient character and the Board feels that, with a slight addition to the present three pieces of motor-driven apparatus, the needs of the department will be cared for, for some little time. This additional piece of apparatus, or rather an alteration of an existing piece, is to motorize the hose wagon at Arlington Heights. The Chief of the department estimates that this can be done by the purchase of a chassis, the men of the department to place the body of the present hose wagon thereon and do all the necessary work, the cost to be about nine hundred dollars (\$900). This will obviate the necessity of purchasing a pair of horses at a cost of about seven hundred dollars (\$700) as the horses now in use are getting too old to be of value to the department much longer and should be replaced this year either by new horses or a motor equipment.

The department consists of a Chief Engineer, two Assistant Engineers, ten Permanent and twenty-three Call Men. The permanent men have been receiving the following salaries: Captain, \$21 per week; eight men at \$20 per week and one man at \$18 per week. The men are on duty twenty-four hours each day and are allowed one day off in five. At the request of the men the Engineers recommended to the Board an increase of pay for the permanent men from the present rate, \$1,040 per year, to \$1200. This recommendation the Board endorses, and therefore recommends an appropriation of nineteen thousand dollars (\$19,000) for 1917, this amount taking care of the increase in pay (\$2075), and the purchase of the chassis for the Heights wagon (\$900).

For detailed report of the work of the department reference is made to the report of the Chief Engineer made a part of this report.

For details of expenditures, see Auditor's report under Fire Department.

#### TOWN INSURANCE.

The amount appropriated in the March meeting for Town Insurance (all kinds) for 1916 was \$6385. The Board found it necessary in the latter part of the year to request the Finance Committee to transfer from the Reserve Fund to the Insurance

Account the sum of \$670 to meet the excess premium on Employees' Liability Insurance carried by the Town. This made a total appropriation for insurance of \$7055, an amount larger than ever appropriated for insurance in any one year. The Board is pleased to report that the amount needed for this purpose for 1917 is \$3500, classified as follows:

Renewals of policies expiring in 1917	\$1,188.00
Liability Employees' Insurance	1,890.00
Liability Public Insurance	110.00
Bonds and Automobiles	312.00
	<hr/>
	\$3,500.00

As reported last year the Board has on file a detailed inventory of all property both real and personal owned by the Town in which insurance is carried. This schedule is to be revised each year making additions when they exist and deductions where, for any reason, they should be made. The value of the property of the Town insured at the present time is \$967,000 written on a blanket form covering all property at the rate of \$12 per thousand.

#### ROBBINS MEMORIAL TOWN HALL.

Our beautiful Town Hall continues to be the favorite gathering place of our citizens for social, educational, political and charitable purposes. During the year \$1819 have been received for rentals of the building. No extraordinary repairs or alterations have been made the past year but there are certain alterations, that in the opinion of the Board, should be made the coming year. These alterations consist of installing doors separating the offices from the main building and doors shutting off the corridors in the Town Hall from the office entrances.

These alterations are deemed very necessary, the first on account of the frequent use of the hall for dancing and entertainment purposes, thus in a great measure interfering with the work of the offices, and the second that the entire auditorium including the corridors may be locked entirely from the rest of the building when the auditorium is not in use, thus making a great saving in heat as well as preventing people from wandering through that part of the building without the knowledge of those in charge.

The Board desire to express their appreciation of the manner in which the Superintendent and his Assistant take care of the building.

#### OLD TOWN HALL BUILDING.

##### MENOTOMY HALL.

In April of 1916 this hall which had been rented for theatre purposes, and from which the Town derived an income of one thousand dollars (\$1000) per year, was vacated, another theatre having been opened on Medford Street. After the premises had been vacated, it became apparent that in order to derive any revenue from the hall extensive repairs were necessary. It was thought at first that the old floor could be repaired in a manner that would last for some time, but on being more closely examined by experts it was found that the money expended on these repairs would be money wasted, as the floor could not be placed in a safe condition. Estimates were then asked for the laying of a new floor over the old one. Mr. Bilafer was the lowest bidder, his figures being \$292.50, and the contract was awarded to him at those figures. On asking for estimates for painting the wood-work and retinting the walls it was found that the lowest figure was \$335.50. These two items amounted to \$628 or \$28 more than the appropriation. The falling of the ceiling in the Police Station and unexpected repairs on the boiler ordered by the State Inspector necessitated an additional expenditure of \$116. On this account the Board were unable to do all the work necessary, but completed the floor and the painting and tinting of the main hall and upper corridors and anterooms.

These repairs should be completed the coming year in order to realize an adequate return for the expense by rentals. The receipts from this hall after the above repairs were made were \$142.

##### GYPSY MOTH WORK.

In the report of the Superintendent made to the Board and made a part of this report it will be seen that the work of this department has been done in the same efficient manner as in previous years.

The appearance of other leaf-destroying insects in the Town prevents a reduction in the appropriation for the suppressing of these pests.

It is particularly desirous that all our citizens realize the great advantage to the public good to be gained by each doing his share in co-operation with the Local Superintendent in exterminating not only the gypsy and brown-tail moths, but the tent caterpillar and other pests of like nature.

The Board desires to express its appreciation of the work done by Mr. Daley, the Superintendent, during the past year.

#### MILITARY AID, STATE AID AND SOLDIERS' RELIEF. STATE AID

This aid is rendered to veterans of the Civil and Spanish wars and to the widows of veterans. The amount paid each applicant varies in accordance with the conditions existing, the largest amount being \$6 per month, and the smallest being \$4. This aid is rendered only by the approval of the Commissioner of State Aid and the whole amount is reimbursed by the State the following year. It will be seen, therefore, that aid rendered under this heading costs the Town nothing directly but is included in the State Tax paid by the Town. The monthly pay-roll of State Aid varies from \$175 to \$200.

#### MILITARY AID.

This aid is rendered only where it is shown that pension and State Aid are insufficient to properly care for the applicant and is only rendered in extreme cases of need. When rendered State Aid is suspended until the need of greater relief is removed. The State reimburses the Town one-half of the amount expended. During the period of 1916 there was no one receiving this aid. Other cases are, however, liable to arise at any time.

#### SOLDIERS' RELIEF.

This aid may, in the judgment of the Board, be rendered to veterans and widows of veterans, where the applicants have settlement in this Town and are in needy circumstances and where a pension and State Aid are insufficient to properly care for them. The cases aided under this law are few and the monthly pay-roll of \$35, as reported in 1914, has been reduced to \$28. Like Military Aid, however, new cases may apply at any time. The Town bears the entire expense of this aid.

## PURCHASE OF COAL FOR TOWN DEPARTMENTS.

In accordance with the custom for quite a number of years the Board issued invitations to various coal dealers for bids to furnish all the departments with coal for the year. Four firms replied, and the bids were opened by the Board, the School Committee agreeing to leave the whole matter to them.

Peirce & Winn Company being the lowest bidder, the contract was awarded to them, in accordance with the specifications contained in the bid.

The prices on the various kinds of coal used were as follows:

Lackawanna D. & H. Stove and Egg	\$7.05
Honey Brook, or Hazeltine Egg	7.50
Reading Egg	7.05
D. & H. Stone in one-half ton lots (Outside Poor)	8.00
George's Creek Cumberland	5.55
Carbon Forge Cumberland	5.20
Carbon Stream Cumberland	4.95
Broad Top Cumberland	4.95

## SUMMER STREET ESTATE.

Reference is made to the report made by the Board one year ago on this property. The conditions have in no way changed.

## PRINTING TOWN REPORT.

Following the custom of previous years the Board issued invitations to ten printing establishments for bids for printing the Town Report of 1916.

Five replies were received, and after a careful comparison of the figures quoted the contract was awarded to the Murray and Emery Company, of Cambridge, they being the lowest bidders. By reason of the Board taking advantage of a low price on paper prevailing about December 1, and placing the order for printing the Town report at that time, the cost of the book this year will not be much in excess of that of 1915.

## JURORS.

Owing to the law now in effect governing the selection of jurors, many complaints have been received on account of citizens being

deprived of any knowledge that their names are on the jury list. The law requires that the Board of Selectmen shall prepare a list of jurors, a copy of which is filed with the Town Clerk and with the Clerk of the Superior Court. Formerly this list was published so that the citizens in Town Meeting could have their names stricken from the list and others substituted. This can no longer be done and the Board would advise all citizens desiring not to serve on the jury to write a letter to that effect during the month of January each year. The list of jurors as revised by the Board will be found under that heading.

#### LICENSES.

*Garage and Gasoline Licenses.* During the year new regulations have been made by the Fire Prevention Commissioner, regulating these licenses. Under these regulations citizens desiring a license to maintain a garage to accommodate one or two cars need only to apply to the Building Inspector and the Chief of the Fire Department. For a license to keep and store gasoline to an amount not exceeding 120 gallons, application need only be made to the Chief of the Fire Department. Where licenses are applied for to keep more than two automobiles, or to keep and store gasoline to an amount exceeding 120 gallons, the law requires that the Board shall give a hearing, after fourteen days' notice, to all interested abutters.

*Common Victuallers.* With the growth of the Town, the number of these licenses issued must naturally increase. The Board continues to require that the premises where these licenses are granted be at all times kept in a clean and sanitary condition. All applications are submitted to the Police Department for investigation as to the character of the applicant and the conditions of the premises.

#### STREET AND TRAFFIC REGULATIONS.

Owing to the rapidly increasing traffic through Massachusetts Avenue, Medford Street, Mystic Street and Pleasant Street, the Board have deemed it wise to establish street and traffic regula-

tions governing vehicles of every description. They have accordingly adopted the following rules and regulations, the same to go into effect April 1, 1917.

#### STREET AND TRAFFIC REGULATIONS

ORDERED: That the following rules and regulations be, and the same hereby are, made and promulgated by this Board as the rules and regulations governing the transportation of merchandise, the regulation of traffic of all kinds, and the movement, stopping and standing of vehicles of all kinds in public streets of the Town, the same to take effect and be in full force on and after April 1, 1917.

The various cases were disposed of as follows:

Cases placed on file, 83; cases placed on probation, 93; discharged, 15; dismissed for want of prosecution, 5; defaulted, 4;

fined, 98, fined and appealed, 24; fined and fine suspended, 3; held for the Superior Court, 1; held for the Grand Jury, 7; released from the police station, 90; sentenced to the House of Correction, 13; sentenced to the House of Correction and sentence suspended, 4; sentenced to Sherborn and sentence suspended, 2; sentenced to the State Farm and sentence suspended, 1; sentenced to the House of Correction and appealed, 5; sentenced to the State Farm 5; sentenced to the State Farm and appealed, 1; sentenced to Sherborn and appealed, 1; sentenced to the Lyman School, 1; sentenced to the Massachusetts Reformatory, 1; sentenced to the Shirley School for Boys, 1; turned over to the police of other cities and towns, 91.

Personal property (not including automobiles) to the value of \$2380.78 has been reported to this department as stolen during the year, and we have recovered and returned to the owners property valued at \$1638.00.

Automobiles to the value of \$4000 have been reported to this department as stolen in Arlington and we have recovered and returned to the owners autos valued at \$3550.00

We have also recovered in Arlington automobiles stolen from other cities and towns to the value of \$4925 and returned them to their respective owners and have arrested 12 automobile thieves.

found unlocked at night and secured, 516; stray teams cared for, 7; search warrants for liquor served, 1; search warrants for firearms served, 2.

During the year 97 accident cases have been investigated and attended by this department; 5 of these cases were fatal, and of the 97 cases investigated automobiles were involved in 58.

Many complaints have been received during the year in regard to the auto taxi service companies. I firmly believe that every firm operating a taxi for hire should be compelled to file a bond with the Town for the safety of passengers so that in case of accident there might be some redress; at present there is none.

I would ask that there be placed on the ballot at the Annual Town Meeting the following: Shall Chapter 293 of the Acts of 1916 of the Revised Laws authorizing the licensing by cities and towns of motor vehicles carrying passengers for hire be adopted? I earnestly urge its adoption.

Some definite rules and regulations should be made governing their business activities; each vehicle should bear an identification number and each driver should be licensed by the Town and every driver made to wear a suitable badge with a number thereon that he may be identified, and last but not least a standard schedule of prices should be adopted and maintained so that passengers could not be imposed upon by an unscrupulous driver.

Owing to the immense and ever increasing traffic through Arlington for the safety of the pedestrians there is a demand for three traffic police officers; one is wanted at the junction of Park and Massachusetts Avenue; one at the junction of Mystic Street and Massachusetts Avenue and one at the junction of Lake Street and Massachusetts Avenue; these men are wanted at these crossings continuously, and beginning May 1st it would cost \$1830, and I would recommend that this amount be appropriated for that purpose.

I would recommend that the sum of \$20,576.50 be appropriated for the use of the Police Department for the year 1917, viz.:

Salaries	\$16,912.00
Telephones	190.00
Auto list book	15.00
Police signal book	18.50

For necessary incidentals	600.00
For 3 traffic officers 244 days at \$2.50 per day	1,830.00
	<hr/>
	\$20,576.50

In conclusion I wish to thank your Honorable Board for the hearty co-operation you have given me in the discharge of my many disagreeable duties and every citizen who has in any way assisted this department — you have my sincere thanks.

Respectfully submitted,

THOMAS O. D. URQUHART,  
*Chief of Police.*

# ANNUAL REPORT OF THE CHIEF ENGINEER OF THE FIRE DEPARTMENT.

---

ARLINGTON, MASS., December 31, 1916.

*To the Honorable Board of Selectmen of the Town of Arlington.*

*Gentlemen:* I respectfully submit my annual report of the Arlington Fire Department for the year ending December 31, 1916.

The number of companies and equipment are the same as last year, viz. One motor double combination hose and chemical, one motor triple combination hose, chemical and pump, one motor combination ladder and chemical, one horse-drawn hose wagon, one double tank chemical, one ladder truck and two hose wagons held in reserve.

The manual force consists of ten permanent men and twenty-six call men, one permanent man being added the past year and one call man dropped.

The motor apparatus is still giving good results, and barring an accident to the ladder truck late in the year, has had very little trouble. I am recommending the purchase of a motor for the Heights station and disposal of the horses, thus making the department fully motorized. Unless this is done a new pair of horses will have to be purchased for this station.

The fire stations are in fair repair, a few minor repairs having been made the past year. They will all have to be made fireproof in a few years, and until that time I do not think it good policy to expend much money on repairs.

The department has answered 56 bell and 58 still alarms, making a total of 114 alarms; out of these four were Somerville calls and seven false alarms.

Value of buildings endangered	\$57,150.00
Insurance on buildings endangered	53,850.00
Insurance paid on buildings (one loss unadjusted)	7,465.50
Value of contents	23,530.00
Insurance on contents	13,530.00
Insurance paid on contents	1,425.50

For further details of alarms and work of department, see records of Clerk of Engineers.

The appropriation for the year ending December 31, was \$16,000.

#### EXPENDITURES.

Permanent men, pay roll	\$9,977.80
Call men and engineers	3,772.87
Fuel	359.33
Hay and grain	358.07
Telephones	181.68
Electric lights	85.50
Gas	27.76

Supplies	150.87
Blacksmith	65.06
Laundry	47.63
Incidentals	200.34
Gasoline	132.00
Use of horse	60.00
Veterinary service	18.00
New hose	332.50
	<hr/>
Total amount expended	\$15,955.69
Unexpended	44.31
	<hr/>
Appropriation,	\$16,000.00

For further details see report of Auditor.

#### RECOMMENDATIONS.

I recommend the appropriation of \$19,000 and receipts of the department for the ensuing year. This increase is occasioned by the permanent men asking that their pay be increased to \$1200 per year, and for money to purchase a motor apparatus for the Heights station.

The fire alarm is in hands of Superintendent of Wires. For details see report of Superintendent.

The water supply for fire use is still good, no better existing in the State. I recommend that in laying new pipe plenty of

hydrants be installed, as it is a great saving in the use of hose.

I recommend the strict enforcement of the building laws relating to fire prevention. Attention at this time may save the Town from serious trouble in later years.

#### CONCLUSION.

In closing my report I respectfully thank your Honorable Board for the courteous manner in which you have received me in my official capacity. I also wish to thank all other officials of the Town who have so willingly given their services when called upon, and to my assistants and all other members of the Fire Department, I give my sincere thanks for the able manner in which they have answered all demands made upon them, making the work of the department a credit to the Town and a pleasure to command.

Respectfully submitted,

WALTER H. PEIRCE, *Chief.*

## GYPSY AND BROWN-TAIL MOTH DEPARTMENT

---

*To the Honorable Board of Selectmen:*

I herewith submit my report as Superintendent of the Department for the Suppression of Gypsy and Brown-tail Moths for the year ending December 31, 1916.

The work of this department has been carried along on practically the same lines as in previous years. Owing to the careful and vigorous work that has been done against these insects the infestation especially in the residential sections is very slight. By the scarcity of the egg clusters the average citizen might be led to believe that they were wholly exterminated, but such is not the case. A few egg clusters left undisturbed would in a few years undo all the good results we have obtained, and it would mean the same conditions we had only a few years ago. It would be a serious mistake to retard the work in any way at this time by an insufficient appropriation. The policy of the board has been rigidly carried out in keeping the cost of the work to the owners of private estates and to the Town at a minimum. The extremely wet weather we had during the spraying season made our work much more difficult and as the season is short, much work had to be done on days that were not just suitable for that kind of work. During the spraying season we employ from twelve to fifteen men, and hire six horses. At all other times the force seldom exceeds four men. About five tons of lead was used, and it will require the same amount this year. The past year 1197 private jobs were taken care of at a cost of \$1285.28, for which the Town is reimbursed through the assessments levied. The cost to the Town for work on street trees, cemeteries, parks, etc., was \$1013.40. The department is well provided for in regard to spraying machines, tools, etc., with the exception of hose, and we need about 300 feet of three-quarter-inch hose as it is much lighter and can be handled to better advantage than one inch marlan-covered hose.

I would recommend that no reductions be made in this year's appropriation, as the price of all materials has advanced, and

also the added expense of overhauling the two power machines, and repairs to wagons, and the purchase of hose and that the sum of \$5500 be appropriated.

In conclusion I wish to thank your Honorable Board for the confidence placed in me; the Town Clerk, Town Counsel and Auditor for advice freely given.

Respectfully,

DANIEL M. DALEY,  
*Superintendent*

## REPORT OF REGISTRARS OF VOTERS.

JANUARY 1, 1917.

The Registrars of Voters present the following report for the year ending December 31, 1916.

Owing to the requirements of the present laws governing elections and the fact that during the past year a Presidential Primary was held, the Board was called upon to hold more meetings than in any previous year.

During the year twenty-two meetings were held, for the purpose of revising the list, made necessary by the changes in addresses, etc., reported by the Assessors.

The law requires that no name on the list shall be taken from the list until a notice has been sent to the party interested.

The total number of registered voters December 31, 1915, was 2958.

Classified as follows:

Men.....	2802
Women.....	156
	<hr/>
	2958

During the year at the various meetings the names added to the list were as follows:

February 18.....	5
February 26.....	15
April 15.....	8
September 16.....	156
October 18.....	107
October 20.....	51
October 24.....	85
October 28.....	145
	<hr/>
	572

During the year 224 names were dropped from the list on account of death or removal from Town.

The total number of women voters reported a year ago was 156. Since that time but one has been added, making the list at this time 157.

The revised list January 1, 1917, is as follows:

Whole number registered.....	3307
Whole number of men.....	3150
Whole number of women.....	157
	———3307
Number of assessed polls in the Town.....	4567

## REPORT OF THE TRUSTEES OF THE ROBBINS LIBRARY.

---

*To the Town of Arlington:*

The Trustees of the Robbins Library submit their annual report. The circulation shows a loss of 564 with a total of 54,034 as compared with 54,598 in 1915. The Children's Room shows a gain of 1,520 with 15,891 as against 14,371 in 1915.

The attendance in the Reading Room shows a loss on week days of 3,223, 24,303 as against 27,526 in 1915, with a gain on Sundays of 149 — 2,347 as against 2,198 in 1915.

The attendance in the Children's Room has risen from 10,567 to 11,090, a gain of 523, with a further gain of 318 on Sunday — 2,240 as against 1,922 in 1915.

But there is a loss of 2,287 in books taken from the Stack Room — 36,972 against 39,259 in 1915. The use of periodicals also shows a loss — 2,698 as against 3,468 in 1915, a loss of 770. There was a loss also in books and periodicals loaned from Arlington Heights Branch, 3,554 as against 3,769 in 1915, but a gain in books and periodicals sent from the Centre to the Heights, 1,171 in 1916 as against 968 in 1915.

The only explanation which we can offer for these losses was the fear of infantile paralysis, while the closing of the schools brought more children into the Children's Room, increasing the attendance there.

Formerly, older children used to drop into the Library at noon from the High School, but find it inconvenient to do so now owing to the greater distance of the new High School.

Eight hundred and thirty-two new cards were given out this year as against 780 in 1915. The Postal Reserve shows a gain of 119, 965 in 1916 as against 846 in 1915.

The Children's Room has been exceedingly popular. Two large postal card albums were purchased and filled with attractive cards, one for Christmas and New Year, the other for Easter, which were much enjoyed, as were the picture puzzles, and three

Audubon Bird Charts which were added to the Room, showing birds of all seasons in their natural colors. Good-Book Week was observed from December 4-9 and later an exhibit was made of Christmas books to aid in the selection of appropriate material for holiday reading.

The East Arlington Branch, located in the basement of the Crosby School, will soon be ready for use, after many delays in getting it and its contents in suitable condition.

The Library has been enriched the past year by the gift of books from Mrs. E. C. Turner, Arthur W. Glines, Rev. J. G. Taylor, Mr. Emil Schwab, Mrs. A. H. Burt, and the Missionary Circle of the Universalist Church. Mr. W. E. Marshall presented a handsome set of 64 Pageant Postal cards, and the editors of the *Advocate* have continued to send us a file of that paper.

The death of Mr. J. T. Trowbridge on the 12th of February removed from our midst not only a highly esteemed citizen of Arlington, but a former member of our Board of Trustees, when the Board consisted of only three individuals. Death also removed the most constant patron of the Library, Mr. Edward O. Grover.

Exhibitions of photographs, etc., have been given in addition to those reported hitherto.

## REPORT OF THE SCHOOL COMMITTEE FOR THE YEAR 1916.

---

*To the Inhabitants of the Town of Arlington:*

In presenting its report for 1916 your Committee desires to congratulate you upon the year which is past as one particularly satisfactory to it considering the objects accomplished and the advancement made during that time. This report, necessarily brief, covers a period devoid of spectacular accomplishment, but full of steady progress along the more or less routine lines of school administration.

The Committee must reiterate what has been said and what is well known about the crowded conditions of our schools. It need not dwell upon the report of the Special Committee appointed in accordance with the Town Meeting held last June to investigate and set before the public the existing situation and suggested remedies. Your Committee emphatically endorses the recommendation that a sixteen-room Junior High School be constructed at once in the west end of the Town. It is of course impossible to get the best results without adequate housing, and it must be apparent that the longer a thing is delayed the worse conditions will become, and the harder it will be to remedy them. The Town accomplished much in this regard in the completion of the High School, but it cannot rest at this point. The demand for more room is constantly increasing, and your Committee cannot urge too strongly some immediate action to relieve the situation.

The Committee is gratified to be able to report the advancement made this last year in the improvement of housing facilities at present available. Perhaps the greatest accomplishment in this line is the work for fire prevention done at the Russell School. The basement has been made thoroughly fireproof, metal doors have been placed at all the openings and a sprinkler system has been installed through the basement and connecting halls. For further safety, an underground pocket for soft coal was constructed outside the limits of the building. These changes involved a

very considerable outlay, but the Committee feels that its action in effecting them was beyond criticism. Aside from the fact that school buildings are required by law to contain adequate protection against fire, it is surely the highest duty of the townspeople, through those in authority, to use every possible means to safeguard the lives of the children entrusted to their care.

There will be a good deal of interest in the effect produced by the failure to open the public schools in September owing to the prevalence at the time of infantile paralysis in neighboring cities. Naturally such an occurrence might be expected to set the whole year's program back by that length of time, besides occasioning a possible loss of interest on the part of the pupils which would have to be overcome before even normal progress could be attained. Your Committee is much pleased that such is not the case. Instead of the excess of vacation exercising an injurious effect upon the students, they seem to have gained in enthusiasm, and with the encouragement and help of an unusually able corps of teachers have already made up much that was lost.

The townspeople are aware that during the autumn they suffered a real misfortune in the resignation of the Superintendent, Mr. Scully, whose faithful service for more than ten years carried to those who were acquainted with his work the conviction that the Town could hardly get along without his services. He brought into school affairs an enthusiasm and devotion that we cannot expect to duplicate. To fill the vacancy caused by Mr. Scully's resignation the Committee, after much deliberation, selected Mr. George C. Minard, of Bristol, Rhode Island. He is a man of wide experience in the Boston schools and elsewhere, and the Committee appointed him from a large field of candidates in the belief that he was well fitted to carry on the work of this department. So far he has amply justified this opinion.

It is with some regret that the Committee must introduce into a report which it hopes would be otherwise acceptable the admission that its appropriation has been slightly exceeded. In explanation it is only fair to state that this excess was largely three items: Repairs, supplies, and heat and power; also expense increased by the infantile paralysis scare. All of these items are of extreme importance. They are items which are bound to increase from year to year, sometimes to an extent that cannot

be anticipated. There has been a marked advance in the cost of these articles during the year.

In the light of its experience in 1916, and in view of changing conditions which cannot be denied, your Committee must urge upon you the need for a still larger appropriation during the coming year. Even if progress were at a standstill, and surrounding conditions the same, it could hardly be expected that overhead expense and upkeep would be materially less. But there are greater burdens every year, new obstacles to contend with and difficulties to overcome. The Town is growing. The enrollment at the beginning of the present school year shows an increase of more than two hundred over the previous year. Adequate provision must be made for this and similar increases which will of course continue to occur. Another very real problem appears in the proverbial high cost of living. Teachers are demanding higher salaries, and getting them. It seems only fair that such should be the case, but aside from its justice or injustice, it remains a very real fact, that as such must be met by the townspeople. If they decline to recognize it, there is but one alternative, the lowering of standards in teaching staff, and the consequent lowering of academic standing in your public schools. The Committee does not believe you will seriously contemplate this latter possibility.

In closing, the Committee desires to express its hearty appreciation of the co-operation of the school officials and the support manifested by the townspeople throughout the past year. With the continuation of that same co-operation and support it hopes to be able to render a year from now a report that will show results worthy of the standards which have always been set for the Arlington schools.

Respectfully submitted,

CARL N. QUIMBY,  
*Chairman.*

## REPORT OF THE BOARD OF HEALTH.

---

The Board of Health respectfully submits the following report for the year ending December 31, 1916.

The Board, consisting of Dr. Laurence L. Peirce, Dr. Guy E. Sanger and Alfred H. Knowles, held its first meeting March 7, 1916, at which time Dr. Peirce, having been re-elected for a term of three years, was sworn to the faithful performance of his duties by the Town Clerk.

Dr. Peirce was re-elected Chairman, and Miss Gertrude K. Clifford was appointed Clerk.

The first case of infantile paralysis in the serious outbreak of the past year was reported in Arlington, September 8, 1916. An immediate conference with the Massachusetts State Department of Health, through its District Health Officer, Dr. Charles E. Simpson, was held in order that the local Board might work in conjunction with the highest authority.

It was voted that the schools be closed and that no public gatherings of children under sixteen years of age should be held until further notice.

Arlington escaped with eight cases of infantile paralysis, of which three were fatal.

On October 13, 1916, the schools reopened after a thorough medical inspection of all pupils in each school.

The Board thoroughly appreciates the painstaking services of Dr. Ezekiel Pratt, in carrying out the large amount of extra work entailed by the presence of these cases in the Town.

The pollution of Mill Brook by sewage from the system at Brattle Street has long been a just cause for complaint by individuals and a source of extreme annoyance to the Board. This difficulty is removed and the abatement of this nuisance assured by the following communication from the Board of Public Works:

NOVEMBER 29, 1916.

*Board of Health, Arlington, Mass.*

*Gentlemen:*

At a meeting of the Board of Public Works held November 27 the following votes were passed:

*Voted*, That the Town Engineer, acting under the Superintendent, be ordered to at once purchase and install machinery for an auxiliary pump at Brattle Street, this and the Grove Street pump to be equipped with some style of recording device.

*Voted*, That the Superintendent be instructed to detail a man or men to see that the Brattle and Grove Street pumps are at all times performing their functions properly, that a watchman's clock be installed at both places. The man or men detailed for this work to submit daily, in writing, a complete record of their services, said record to show when they visited each pump, how long they stayed there, the condition in which the pump was found and whatever work had to be done.

Yours truly,

BOARD OF PUBLIC WORKS,

(Signed)

H. N. WILLIS,  
*Clerk.*

For the detail work carried on by the Bacteriologist, Superintendent of the Health Department, and other Inspectors we refer you to the appended reports.

#### BACTERIOLOGICAL DEPARTMENT.

Specimens will be received at the Bacteriological Laboratory at the Town Hall daily, at any time, and they will be examined and reported upon the following morning.

## REPORT OF THE BACTERIOLOGIST AND PHYSICIAN TO THE BOARD OF HEALTH.

*Board of Health, Arlington, Mass.*

*Gentlemen:* I have the honor to submit my annual report as Bacteriologist and Physician to the Board covering the year 1916.

The number of examinations far exceeds any previous year,

showing that the value of the laboratory is making itself felt more and more every year. The rapid manner in which the diagnosis of doubtful throats of the school children can be cleared up must surely repay the Town for the running of the laboratory.

The following table shows the number of examinations made during the year 1916:

	<i>Total</i>	<i>Pos.</i>	<i>Neg.</i>	<i>For Diag.</i>	<i>For Release</i>
Diphtheria	142	12	130	134	8
Typhoid Fever	62	4	58		
Malaria	12	0	12		
Tuberculosis	96	18	78		
For Gonococci	14	3	11		

The Tuberculosis Dispensary has not been as satisfactory as I had hoped. This is due to the fact that we have no regular nurse for this important work. The District Nursing Association nurses are much too busy with other duties to put much time in on this line of work. With co-operation and a special nurse I am sure we can guarantee enough benefit to individual and community to repay for the expense incurred.

My other duties with the contagious work have gone along smoothly. The infantile paralysis scare increased the work somewhat but I think was carried out thoroughly with the supervision of the State Department of Health.

With the help of a special nurse we could, I feel sure, increase the benefits to the Town in health work very materially, and I urgently advise the employment of such a nurse.

Respectfully submitted,

EZEKIEL PRATT, M.D.,  
*Bacteriologist and Physician to the Board of Health.*

#### REPORT OF THE INSPECTOR OF PLUMBING.

*To the Board of Health, Arlington, Mass.*

*Gentlemen:* I herewith submit my report as Inspector of Plumbing for the Town of Arlington for the year ending December 31, 1916.

There have been 301 permits issued, calling for the setting of 2140 fixtures divided as follows:

Water closets	467
Bathtubs	393
Lavatories	446
Sinks	425
Wash trays	393
Shower baths with separate setting, requiring trap	14
Butler's pantry sinks	2
Floor drain	3

There have been made necessary by sewer connections seven changes in the main drains requiring water tests. Twenty-one traps were condemned and ordered replaced. Eight permits were cancelled for various causes.

Usual calls for inspection of work in unsanitary condition in old buildings have been made, and reports of conditions returned to the Board. Inspections of premises having State wards have been made as called for.

I wish, at this time, to thank the Board and other Town officials whose kind assistance and co-operation have helped to make the increasing duties of this office easier.

Respectfully submitted,

GEORGE W. DAY,  
*Plumbing Inspector.*

## REPORT OF THE SUPERINTENDENT OF THE HEALTH DEPARTMENT.

*To the Board of Health, Arlington, Mass.*

*Gentlemen:* I herewith submit my annual report as Superintendent of the Health Department for the year ending December 31, 1916.

With the increase in population, increase in labor, teams and

vacations, etc., the expense of the department has increased accordingly. Below is a comparative table of the cost for 1915 and that of 1916.

<i>Offal</i>	<i>1915</i>	<i>Offal</i>	<i>1916</i>
Labor	\$3,555.09	Labor	\$4,201.50
Teams	1,442.82	Teams	1,594.78
	<hr/>		<hr/>
Total	\$4,997.91	Total	\$5,796.28
<i>Ashes</i>	<i>1915</i>	<i>Ashes</i>	<i>1916</i>
Labor	\$2,610.45	Labor	\$2,051.89
Teams	1,552.01	Teams	306.46
	<hr/>	Outside Teams	2,526.90
Total	\$4,162.46		<hr/>
		Total	\$4,885.25
<i>Paper</i>	<i>1915</i>	<i>Paper</i>	<i>1916</i>
Labor	\$1,407.54	Labor	\$1,232.99
Teams	482.16	Teams	290.84
	<hr/>	Outside Teams	851.19
Total	\$1,889.70		<hr/>
		Total	\$2,375.02

NOTE. A considerable portion of the work of collecting ashes and paper was done with outside teams with which a driver was furnished.

#### COLLECTION OF ASHES, OFFAL AND PAPER.

During the year there have been collected and hauled to the various dumps 6043 single cartloads of ashes against 4497 loads in 1915; 1330 wagonloads of paper, against 1125 in 1915; and 368 cords of garbage, against 352 cords in 1915. In the collection of ashes the location of dumps is the important feature as regards the cost of the work. With the rapid development in all sections of the Town, suitable dumping ground is becoming a serious problem, and I should advise your Board to take action in bringing this matter before the citizens. The paper collected is sold to T. J. Carroll, Charlestown, Mass. He furnishes his own help to sort and bale, also level off the ash dumps. For this privilege he pays the Town ten dollars (\$10) per month. The equipment for collecting garbage consists of three single teams. Each team is allowed a helper four days a week. To meet the

increasing demands it will be absolutely necessary to provide another team this year to properly care for this feature of the work. The offal house, owing to poor sewerage, is a menace to the employees and a nuisance to the neighborhood, and I should earnestly recommend that provision be made for connecting the same with the public sewer as early as possible.

December 1 the wages of employees engaged in collecting ashes and papers were increased 25 cents per day to correspond with the average wages paid the other employees. Beginning January 1, 1916, the cost of highway teams was increased from \$1.55 to \$1.76 for a single team per day. Contractors or outside teams were increased as follows: Double team and driver, from \$5 to \$5.50 per day; single team and driver, from \$3.50 to \$4 per day. This, together with the vacations, holidays, etc., represents \$1171.14 of the \$2007.64 expenditure in excess of 1915 as follows:

Highway Department increase in team hire amounted to	\$295.93
Outside teams increase in team hire amounted to	405.37
Vacations of employees amounted to	231.78
Saturday half holiday, six months, amounted to	188.50
Amount due to increase in cost of labor	49.56
<hr/>	
Total increase due to increase of labor, teams, etc.	\$1,171.14
Increase due to increase in population	836.50

#### CONCLUSION.

In closing I would urge the recommendations embodied in this report, namely, the providing of a new offal wagon and pung, the connecting of the offal house with the public sewer, and the purchase of low lands conveniently located for dumps. In anticipation of the cost of carrying on the work of this department the ensuing year, I would recommend an appropriation of \$17,400.

Respectfully submitted,

WILLIAM H. BRADLEY,  
*Superintendent of the Health Department.*

## REPORT OF INSPECTOR OF MARKETS.

*To the Board of Health, Arlington, Mass.*

*Gentlemen:* I herein submit my report as Inspector of Markets from January 1, 1916, to September 1, 1916. All markets were inspected at frequent intervals and as a rule found them in very good condition. Any foodstuffs diseased and unfit for food were destroyed.

Respectfully submitted,

WILLIAM T. McCARTY, V.S.,  
*Inspector of Markets.*

*To the Board of Health, Arlington, Mass.*

*Gentlemen:* I herewith submit to you my report as Inspector of Markets for the four months ending December 31, 1916.

Markets have been inspected at frequent intervals. Several storekeepers not knowing the State Health Laws were found unintentionally violating the same by having "Compound Lard" without the sign required by law; also the sign "Cold Storage Goods Sold Here" was not displayed in several stores, while some neglected to stamp egg containers with the words "Cold Storage Eggs."

Thirty pounds of pork, and twenty pounds of poultry were condemned and disposed of.

Storekeepers have been instructed about signs required by law, so that all markets at present are in excellent condition.

Respectfully submitted,

TIMOTHY J. FALVEY,  
*Inspector of Markets.*

# REPORT OF COMMISSIONERS OF CEMETERIES, ROBBINS FUND, SOLDIERS' MONUMENT FUND AND SAMUEL C. BUCKNAM FUND

---

ARLINGTON, February 1, 1917.

The Commissioners of Cemeteries, Soldiers' Monument Fund, Robbins Fund and Samuel C. Bucknam Fund present herewith their report for the year ending December 31, 1916.

This report will differ but slightly from reports made in previous years, the work of the department being to maintain the cemeteries and Soldiers' Monument grounds in a manner approved by the Town, making such recommendations as in the opinion of the Commissioners necessity requires. Within the year the work of resurfacing the various driveways in the cemetery has been continued. The Board has continued its custom of setting out shade trees and shrubs to beautify our cemetery grounds.

During the year the Metropolitan Park Commission has, with the consent of the Commissioners, removed a large quantity of gravel from the undeveloped part of the cemetery in order to enable them to make the fill on the shores of Mystic Lake to continue the Boulevard. This excavation met with the approval of the Board because, sooner or later, this part of the cemetery must be opened for burial purposes, and the Commissioners are of the opinion that the gravel given to the Park Commissioners for the purpose of constructing the Boulevard will work to the advantage of the Town in many ways.

EDWARD A. BAILEY,

December 31, 1916.

*Collector of Taxes.*

## AUDITOR'S STATEMENT.

I have examined the accounts of Edward A. Bailey, Collector of Taxes for the Town of Arlington, Mass., and find the same correct, agreeing with the Auditor's books.

GEORGE McK. RICHARDSON,

December 31, 1916.

*Auditor.*

## AUDITOR'S REPORT

For the Financial Year Ending December 31, 1916.

---

The accounts of Treasurer and Collector have been examined and found correct and my certificate of approval has been attached to each.

The Trust Fund accounts have also been examined and found correct, and the securities as shown have been checked and found to agree with the accounts.

For several years I have requested that a revised list of Public Property be made, and a committee was appointed this year for that purpose. The result shows nearly one million dollars increase over the amount carried on our books.

A new law which has been put in effect during the year called for payment by the Town to the State of \$77.10 under the Soldiers' Exemption Act. This amount must be provided for, and provision must also be made for the year 1917.

Two overdrafts appear in the accounts. In the case of widening of Massachusetts Avenue it was caused by the settlement of a suit against the Town for land taken.

Snow and ice was clearly an emergency and as it was all labor charge, it had to be paid.

Although the school appropriation shows no overdraft, it is known that the December pay roll is incomplete and December bills are also unpaid. The total amount due is unknown to me at this time.

I would suggest as a matter of facilitating the work of closing accounts for the year that all balances of appropriations be left available for the departments. The departments could then close their accounts without waiting for bills to come in, as is now the case.

Tax Titles. Under this account I am carrying several titles, which have been sold to the Town and no longer exist as tax titles, the Town being in possession of the property. An ap-

propriation should be made to cover this amount and reimburse the Tax Title account.

Town Debt. Owing to large appropriations made by borrowing during the year, the amount necessary to be raised in 1917 for town debt is \$20,000 more than last year.

The net debt of the Town has decreased \$8926 since last report, even with the large borrowings made during the year.

Respectfully submitted,

GEORGE McK. RICHARDSON,  
*Auditor.*

"SECTION 5. Upon the election of said Board of Public Works all the powers, rights and duties and liabilities of the Selectmen in said Town, now existing, or hereafter created by law, relating to highways, Town ways, the laying out and discontinuance of ways, bridges, sidewalks, guide posts, monuments at the terminal and angles of roads, public squares, playgrounds, shade trees, sewers, drains, street watering, street lighting, the assessment of damages and betterments, water pipes, gas pipes, conduits, poles, wires, street railways, the granting of locations, rights or licenses for structures upon, under or over highways, or other ways, shall be exercised, enjoyed, performed and incurred by a Board consisting of the Selectmen and the Board of Public Works, created by this Act, sitting jointly as the Board of Survey."

The foregoing Act was accepted by the Town, February 8, 1904, and has been in operation since that time.

### NEW STREETS.

The Town having accepted the provisions of Chapter 249 of the Acts of 1897, known as The Board of Survey Act, the Board has established the following rules and regulations governing petitions for the laying out and acceptance of new streets. The Board found this action necessary in order to avoid misunderstandings, and to enable petitioners to know approximately what the ultimate cost of the street would be, and the conditions under which the Board could recommend the acceptance of these streets to the Town. The rules, as adopted by the Board are:

1. *Approval of Plans.* No plan will be approved which does not comply with the following Board of Survey Act.

2. *Petition for estimate of cost of construction.* After the approval of plans by the Board the interested parties may on application receive from the Clerk of the Board a blank form of petition requesting the Board to furnish an estimate of the cost of construction of the proposed street. This petition should bear the names of *all* owners of land abutting on the street together with the *signatures* of the parties petitioning.

On receipt of this petition the Board will designate the type of construction and direct the Town Engineer to make an estimate of the cost of this construction.

3. *Petition for the laying out of streets.* A blank form of petition for layout, stating the length, width, type of construction and estimated cost, will then be sent to the petitioner. This petition should also show names of *all* owners of land abutting and their addresses, together with the signatures of as many as possible of the parties desiring the layout. On receipt of this petition the Board will set a date for a hearing and all interested parties will be notified.

4. *Action by the Board at first hearing.* After this first hearing, if, in the opinion of the Board, common convenience and necessity require that the street in question be laid out as a public highway, they so vote and further vote that it is the *intention* of the Board to so lay out. A hearing is then set on the intention of the Board,

and all interested parties are notified by warrant served by a Constable of the date of said hearing.

5. *Final hearing on intention of the Board to lay out.* If after the second hearing the Board are still of the opinion that public convenience and necessity require that said street should be laid out as a public way a vote is passed laying the street out in accordance with the plans approved by the Board and a record is made of the description of the street by meters and bounds.

6. *Acceptance by the Town.* After the vote by the Board to lay out it is then within the authority of the Board of Selectmen on petition to insert an article in the Town Warrant for the acceptance of the street. No street can be brought before the Town for acceptance until the foregoing rules have been complied with. The Board would remind all persons intending to petition for the laying out and acceptance of streets that appropriations for this purpose are only made at the March meeting of each year. The petitions should, therefore, be filed during the early fall months, in order to allow time for hearings before the drawing of the Warrant for the March meeting.

#### STREET BETTERMENT ASSESSMENTS.

During the year, thirteen new streets have been accepted by the Town and eleven have been constructed. Under the law creating the Board, and the vote under which these streets were accepted Betterment Assessments will be levied on the abutting owners on these streets during the coming year. As the Board has stated in previous reports the assessment of these betterments is not an easy task, as the Board in its official capacity is sworn to serve the interests of all the citizens of the Town, as well as to accord the individuals directly interested fair and equitable treatment.

#### PERMANENT SIDEWALKS.

As stated in the report of the Board a year ago the subject of sidewalks in our Town is a very important one, on which the Board feels that a more liberal policy should be adopted than has been the custom in the previous years. With your many new streets being laid out and accepted it is but fair to the owners of buildings on these streets that sidewalks should be installed,

and in most cases these sidewalks should be of a permanent character.

It has been the custom of the Board to grant permission for the installation of these sidewalks where the appropriation would allow the Town to bear its portion of the cost on the completion of the work. Owing to the small amount of the appropriation made for Permanent Sidewalks during the past few years, the Board has found itself in the rather embarrassing position of practically mortgaging the next year's appropriation in order to pay the reimbursement to which the petitioners are entitled. The Board would, therefore, recommend that the appropriation for 1917 be sufficient to make the reimbursements for sidewalks installed in 1916, and to allow the Board to grant the petitions for sidewalks in 1917 without figuring on the appropriation for 1918.

#### STREET LIGHTING.

The appropriation for street lighting for 1916 was \$12,400. During the year 55 new lights were installed and 10 removed, making a total of 45 additional lights installed in 1916. The number of lights in service December 31, 1916, is as follows:

40 candle power, Tungsten incandescent.....	398
60 candle power, Tungsten incandescent.....	11
80 candle power, Tungsten incandescent.....	5
100 candle power, Tungsten incandescent.....	1
600 candle power, Tungsten incandescent.....	81
100 candle power, Tungsten incandescent Multiple.....	6
	<hr/> 502

#### ORNAMENTAL STREET LIGHTING.

Thirty-nine 60 watt 56 candle power each burning until 12 midnight.

Six 60 watt 56 candle power each burning all night.

Four 100 watt 98 candle power each burning all night.

This makes a total 49 lights on this system.

On December 22, 1916, the Edison Electric Illuminating Company made a proposition to the Board, agreeing to substitute Type C lamps for Type B lamps, as follows:

For 401 40 candle power, Type "B" lamps substitute 401 60 candle power Type "C."

For 11 60 candle power Type "B" lamps substitute 11 80 candle power Type "C."

For 5 80 candle power Type "B" lamps substitute 5 100 candle power Type "C."

The proposition included any additions that might be made on or before December 31, 1916. As this offer of the Company increased the candle power of all our lights without any additional expense to the Town, the offer was accepted by the Board, and the changes will be made as soon as possible.

#### SUMMER STREET EXTENSION.

At a Town meeting held September 18, 1914, the Town voted to accept as a Town way the way known as Summer Street and Summer Street Extension, extending from Mystic Street to the Lexington Line, under the provisions of law authorizing the assessment of betterments. An appropriation was made at that time for the payment of land damages incurred by the layout of this street. The physical work of constructing this street or boulevard was done under the direction of the Board of Public Works, and appropriations for the construction were made at various times, making the total amount appropriated for the construction of the street, and the payment of land damages about \$42,500. In September, 1916, the State Highway Commission took over the street as a State Highway, the Town having brought the roadway to a grade satisfactory to the State Highway Commissioners. On the completion of the work and a certificate from the Board of Public Works, informing the Joint Board that the street had been completed, the duty devolved upon the Joint Board to assess betterments, in accordance with the vote of the Town in accepting the street. In assessing these betterments the Board acted as they considered for the best interests of all the Town, believing that the construction of this street would be of greater benefit to the adjacent owners than to the general public. Accordingly assessments were levied on these amounting to \$29,441. Many hearings were given by the Board to parties who felt themselves aggrieved at the amount of the assessments. A special Town meeting was called on the petition of other parties who had been assessed, and the Board has consulted with various parties relative to these assessments. After a full consideration of the sentiments expressed at the Town Meeting, the various

hearings, and the numerous consultations had, the fact developed that in the opinion of a great many of our citizens the construction of Summer Street and Summer Street Extension was of a great benefit, not only to the citizens of Arlington, but to the traveling public throughout this whole section of the State, relieving Massachusetts Avenue, as it does, of the immense traffic occasioned by these automobiles and other vehicles, and providing a continuous thoroughfare from the present Medford Boulevard to points north of us. With these facts in mind the Board has ordered an abatement, amounting to two-thirds of the original assessment.

#### STREET CAR SERVICE.

As reported by the Board last year the Boston Elevated Railway Company continues to give our citizens good transportation facilities, if the service is to be judged by the number of complaints received by the Board. During the latter part of the summer the Company requested to be allowed to try out a plan which they claimed would ultimately result in an improved service to the whole Town. This plan was to operate a six and seven-minute service between Arlington Heights and Harvard Square, and a seven and eight-minute service between Arlington Centre and Sullivan Square, making a point at the junction of Massachusetts Avenue and Broadway a transfer station for passengers going to and from Arlington Heights via Broadway line. This plan proposed the taking off of all Broadway cars, between the Monument and Arlington Heights. Permission was given the Company to make the change suggested, and a cross-over switch was installed on Broadway at the Soldiers Monument in October. After giving the plan a trial of two months the Board were convinced from complaints received, and from personal observation, that the plan did not work to the advantage of the citizens of Arlington Heights, and the Company were, therefore, requested to remove the switch and to restore the running of Broadway cars to Arlington Heights on a fifteen-minute basis. This latter schedule has been put in operation, and the switch will be removed as soon as the frost leaves the ground.

#### DEVELOPMENT OF NEW TERRITORY.

The Board continues to receive petitions for the approval of plans for the development of new territory. The policy of the

Board is and has been to carefully examine these petitions, and to determine the bearing the granting of the petition would have on surrounding territory, in order that the best interests of the whole Town may be served. Unfortunately many of these petitions are presented by persons, whose interests are purely personal and with apparently no thought of being a benefit to the Town. If some of the petitions presented were approved by the Board and after accepted by the Town it would entail a very great expense to the Town, and a detriment to a further good development in the immediate vicinity. The Board are of the opinion that a good class of development should be encouraged, and that the newcomer who selects Arlington as his future home should at least be made to feel that no unnecessary obstacles are placed in his way, but that on the contrary a compliance with the requirements of the Board will work to his own immediate advantage and the better future development of the locality he selects for a home. In order that prospective purchasers of land in undeveloped parts of the Town may know what rights and privileges they are entitled to, notices calling attention to the provisions of the Board of Survey Act have been posted in those parts of the Town yet undeveloped.

#### NEW STREETS ACCEPTED AND BUILT IN 1916.

During the year the following new streets were accepted by the Town and constructed: Newcomb Street, Grafton Street, from Raleigh Street to Broadway; Randolph Street; Egerton Road; Thorndike Street; Raleigh Street, from Grafton Street to Harlow Street; Florence Avenue, from Claremont Avenue to Renfrew Street; Albermarle Street; from Walnut Street to Mt. Vernon Street; Falmouth Road, from Mystic Street to Langley Road; Langley Road, from Falmouth Road to Upland Road; Upland Road, from Falmouth Road west five hundred feet; and Wyman Terrace, from Massachusetts Avenue to Massachusetts Avenue.

These streets have been constructed under the direction of the Board of Public Works. For detail of the cost of said construction see the report of said Board.

#### GRAY STREET CONSTRUCTION.

During the year the Board has caused to be sent to the various abutters of Gray Street the following letter:

*Dear Sir:*

A number of the owners of property upon Gray Street Extension have signified their desire to the Joint Board of Selectmen and Board of Public Works to pay the assessment which would have been levied against them, if the same were legally possible for the construction of Gray Street.

The Treasurer has been authorized to receive and receipt for such payments and the same will be duly credited and turned into the Treasury account for the purposes of the Town, and at the request of some of the owners a statement has been sent to them and it seemed that possibly others might also be desirous of paying, if the matter were brought to their attention. Therefore, a statement of the amount which was assessed as betterments upon your lot is herewith given to you, to wit,                      Dollars.

In sending this letter to you the Board wish it made clear that there is no legal liability upon you to pay this, but many of our public-spirited citizens feel that the moral obligation is quite as binding as their legal obligation and are so making these payments.

Very truly yours,

THOMAS J. ROBINSON,  
*Clerk.*

Up to this date the Treasurer has received \$6.31 from Julian G. Corson.

#### RESIGNATION OF HENRY S. ADAMS.

In December Mr. Henry S. Adams tendered his resignation as a member of the Board of Public Works, the same to take effect January 1, 1917.

By this action Mr. Adams ceased automatically to be a member of the Joint Board.

The Board desires at this time to record its appreciation of Mr. Adams' services to the Town, while a member of the Board. His thorough knowledge of all sections of the Town, his technical training as an engineer, and his clear, sound judgment made him a particularly valuable member of the Board, one to whom his colleagues were accustomed to look for guidance and advice.

In his retirement to private life Mr. Adams has the sincere wishes of the Board for a successful and prosperous future.

APPOINTMENT OF CHARLES H. GANNETT.

On the resignation of Mr. Adams, as a member of the Board, Mr. Charles H. Gannett was elected by the remaining members to fill the vacancy until the annual March meeting of 1917.

PROPOSED NEW STREET FROM MASSACHUSETTS AVENUE TO  
MYSTIC STREET AND THE ABOLITION OF GRADE  
CROSSING AT MILL STREET.

At the March meeting of 1916 the Town passed the following vote:

*Voted:* That the Board of Selectmen be given permission to use their discretion in petitioning the Superior Court for the appointment of a Special Commission for the elimination of the grade crossing at Mill Street.

Acting under the authority of the foregoing vote the Board of Selectmen, for the Joint Board, has petitioned the Superior Court for the appointment of a Commission as outlined on the vote.

The causes leading up to the petition were the petitions received for track connections at Massachusetts Avenue and Mystic Street by the Boston Elevated and the Bay State Street Railway Company. The granting of such a connection would, in the opinion of the Board create a most dangerous situation, and one that no effort should be left untried to avoid.

With this in mind the Board has caused a series of studies to be made of proposed outlets from Massachusetts Avenue to Mystic Street, one of which, if adopted, will provide a thoroughfare of ample width to properly care for car lines between these points, and will also eliminate the dangerous conditions existing at the head of Mystic Street and the grade crossings at Water and Mill Streets.

A report on the proposed new street will be made at the annual March meeting of 1917.

For cost and details of construction see Board of Public Works Report.

Plans and specifications were prepared and bids obtained from contractors for constructing Egerton Road, Grafton Street, Newcomb Street, Raleigh Street, Randolph Street, Thorndike Street, and Wyman Terrace; also lines and grades were given and stone bounds set to define and preserve the street lines; taking plans were made and the betterment assessments are being computed.

On Summer Street Extension lines and grades were set for its construction, and the contract work was supervised; also specifications were prepared for the removal of 1623 cubic yards of ledge on Summer Street on the northerly side, near Bloomfield

Avenue. This work was awarded to the lowest bidders, Hunter & Maloney, and completed by them.

Plans and specifications were prepared for constructing surface water drains in private lands, from Mystic Street to Lower Mystic Lake through the Langley and Niles property; Mystic Street from opposite Falmouth Road 586 feet southerly, Falmouth Road and Upland Road. The contract was awarded to, and the work done by Daddario & Booth, under the supervision of the Engineering Department.

During the year a total length of 12,195 feet of main sewers was constructed and 199 house connections were made. Sewer assessment plans of the work are all completed and assessments levied.

Plans and specifications were prepared for sewers in Section No. 13, comprising Hamlet Street, Medford Street from Hamlet to Parallel Street, Orchard Terrace from Medford Street to Webcowet Road, Glen Avenue, Farrington Street, Rangeley Road and Pearl Avenue, and the work was done by the lowest bidders, Hunter & Maloney; also Section No. 14, comprising private lands, from Massachusetts Avenue to Woodbury Street, Woodbury Street from Private Lands to Hibbert Street, Hibbert Street private way between Hibbert and Sylvia Streets, Sylvia Street, Arnold Street, from Hibbert Street to Williams Street, and Williams Street and the work was done by the lowest bidder, W. B. Bryne.

For details of the cost of this work see Board of Public Works Report.

Lines and grades were given for laying 7055 feet of water mains and record plans made showing the location of new mains, hydrants, gates, etc.

A Board of Survey study was made for new streets on land owned by Brown and Stackpole on Mystic Street, opposite Falmouth Road and bordering on Lower Mystic Lake; also on land owned by Richard Kelley on Highland Avenue adjoining Menotomy Rocks Park.

Plans of Alpine Street (from 259 feet southwest of Branch Avenue to Summer Street), Blossom Street (from Summit Street to Lennon Road), Branch Avenue (from Alpine Street to Park Avenue Extension), Daniel Street, Fairview Avenue, Lakehill Avenue (from Lake Street 601 feet northerly), Morris Street (from

Alpine Street to Park Avenue Extension), Orient Avenue (from Summit Street northerly), Park Avenue Extension (from Branch Avenue to Summer Street), Summit Street (from Churchill Park to Summer Street), and Surry Road (from Daniels Street westerly), were verified by this department and approved by the Board of Survey after stone bounds had been set in accordance with the data shown on the plans.

Street numbering plans of all new streets have been made and numbers have been assigned to all new buildings.

An accurate survey and plan was made for the proposed widening of Massachusetts Avenue from Academy Street to Lowell Street, and this matter is now being considered by the Board of Survey and the Planning Board.

Plans have been made by the various companies and corporations and filed in the Town Engineer's office, showing the locations of gas mains, poles, tracks, and conduits in this Town, permits for which have been granted by the Joint Board during the year; and the work of placing overhead wires in underground conduits and removing all poles from the streets should be extended as rapidly as possible.

The Metropolitan Park Commission graded a large portion of the boulevard, from Medford Street along the shore of Lower Mystic Lake to Mystic Street, with gravel excavated from Mt. Pleasant Cemetery, to lines and grades given by the Town Engineer, and I understand that the work is to be completed this year.

I again recommend that building lines be established on Medford Street from Massachusetts Avenue to the Medford line, and also on Massachusetts Avenue from Academy Street to the Lexington town line.

I am of the opinion that some definite action should be taken in regard to the proposed street, from Massachusetts Avenue across Summer Street to Mystic Street, for which plans and estimates have been made by this department.

Annexed to this report is a table giving the names of all streets in the Town, public and private, lengths, widths, and total mileage; also a table of general statistics pertaining to the Town.

Respectfully submitted,

GEORGE E. AHERN,  
*Town Engineer.*

## REPORT OF THE SUPERINTENDENT OF WIRES.

---

ARLINGTON, MASS., February 12, 1917.

*To the Honorable Board of Selectmen and Board of Public Works.*

*Gentlemen:* I respectfully submit my seventeenth annual report as Superintendent of Wires for the year ending December 31, 1916.

### POLES AND WIRES.

Forty-three (43) new poles were set and five (5) removed on accepted streets during the year in accordance with petition granted to the Edison Electric Illuminating Company and New England Telephone and Telegraph Company.

Seventy-three (73) poles were replaced, fifty-two (52) by the Edison Company and twenty-one (21) by the Telephone Company during the year.

### UNDERGROUND CONDUITS.

Underground conduits were built by the New England Telephone and Telegraph Company on Medford Street, from Mystic Valley Parkway to the Medford line, this section of conduit being an extension of existing system on this street. Conduits were also built by the same company on Park Avenue, from Massachusetts Avenue to junction of Wollaston and Park Avenues, this system of conduits being built on recommendation of the Wire Department to allow for installing underground fire alarm and police signal wires in this vicinity and to relieve overloading of pole lines with aerial cables.

### INSPECTION OF WIRES IN BUILDINGS.

The rapid construction of new buildings has continued during the past year. Two hundred and fifty (250) new buildings were wired, and one hundred and eleven (111) old buildings. Additional electrical construction was also installed in several hundred buildings wired in the past. More defects were found

on inspection of electrical installations during the year than any in the past and in consequence the work of the Inspection Department was greatly increased in time given to this particular class of construction. No electrical fires have occurred during the past year. Nine hundred and twelve (912) application cards were received by the Wire Department from electrical contractors doing work. One thousand and one (1001) inspections were made, principally on new construction, as time would not permit giving much attention to additional minor installations with the many other duties to perform in the supervision of other branches of the Wire Department. Nine thousand seven hundred and eighty-eight (9788) lights were wired for during the year, also twenty-five (25) motors of a total of  $62\frac{1}{2}$  horse power. Fourteen (14) electric ranges were installed, also three (3) electric radiators and one (1) electric ironing machine. Six hundred and fourteen (614) permits were issued to the Edison Company for ten thousand two hundred and sixty-three (10,263) lights on new installations and for additional wiring on old installations.

## FIRE ALARM AND POLICE SIGNAL.

These systems have given the usual good service as in years past. Several difficult cases of trouble were experienced at various times during the year in the underground wire systems due to corrosion and by water getting into conduits and freezing. In accordance with appropriation made two (2) new fire alarm boxes were purchased and installed as follows:

Box 141, Massachusetts Avenue, near Trowbridge Street, installed October 21.

Box 153, Massachusetts Avenue, at corner Everett Street, installed October 20.

In accordance with appropriation made for extension of new and renewal of old underground wires for the fire alarm and police signal systems five (5) new fire alarm box terminal posts were installed, also two (2) cable post terminals. Three hundred and eighty (380) feet of three-inch (3") iron pipe was used for making underground connections between manholes and post terminals. Iron post terminals were set as follows:

Massachusetts Avenue near Trowbridge Street for Fire Box 141.

Massachusetts Avenue near Everett Street for Fire Box 153.

Massachusetts Avenue near Palmer Street for Fire Box 162.

Pleasant Street opposite Gray Street for Fire Box 34.

Medford Street near Massachusetts Avenue, for Fire Box to be installed later.

Two (2) cable post terminals were set, one (1) at corner of Massachusetts Avenue and Franklin Street, and one (1) at corner of Court Street and Massachusetts Avenue.

Fire Alarm Post Terminal No. 39 was replaced by a larger casting to allow for installation of additional cables at a later date. Three hundred and sixty (360) feet of two wire lead-covered cable was used to make connections to new fire alarm terminal posts.

Owing to the high prices existing during the year it was not considered advisable to purchase any large amount of new underground cables, and repairs were made to existing underground wires to strengthen same until such a time as cost of materials will be normal. Fifteen hundred (1500) feet of special rubber-covered wire was used to make repairs deemed necessary to the underground wires.

The installation of new cables for extension and renewal of the underground wire system of the fire alarm and police signal should not be delayed when the cost of this class of wires again reaches a fair market value, as it is of the utmost importance that as much construction be done in this line as possible to insure reliable service of these two most important branches of the public safety, especially during storms.

No work was done in installing new battery rack at fire alarm headquarters, as suitable arrangements could not seem to be made for use of room that was to be taken for this purpose in the Old Town Hall building.

#### RECOMMENDATIONS.

I respectfully recommend for the coming year that a deputy electrician be appointed for this department, this appointment to be for a permanent man, who shall give the larger part of his time to the care of the fire alarm and police signal systems, and also direct new construction that may be installed in accordance with such plans as are prepared by the Superintendent of Wires. It is absolutely necessary that a deputy shall be appointed at once, as the many duties of supervision of the Wire Department are too great for any one man, considering the rapid increase of work that now has to be done on inspection of electrical installations. Furthermore, our Town should not

place the responsibility of the operation of its signal systems on any one man as an accident, or sickness, etc., to the Superintendent might place the Town in a dangerous condition in so far as the operation of these systems is concerned, as some one of experience in the operation of municipal signal systems will have to be in charge in order that this service shall not be impaired. I furthermore recommend that an automobile repair and emergency wagon be furnished for this department, in keeping with other towns and cities of our population, who recognize the necessity of such an equipment, to the end that when repairs have to be made in a hurry, and these repairs generally take place in the most severe storm conditions, our Wire Department shall have an outfit properly equipped to do its work at such times and not continue on from year to year as it has done without any provision being made for equipment of this important department of the public service.

Respectfully submitted,

REUBEN W. LEBARON,  
*Superintendent of Wires.*

## REPORT OF TOWN COUNSEL.

---

*To the Honorable, the Joint Board of Selectmen, and Board of Public Works of the Town of Arlington.*

*Gentlemen:* I herewith hand you my report as Town Counsel for the year ending December 31, 1916.

During the year the following cases in which the town was interested were tried:

The petition of David Irwin for an assessment of damages for land taken for Summer Street Extension was tried before a jury and an award of \$608.33 was made.

The bill in equity brought by the Town against the Bay State Street Railway Co., seeking an interpretation of the location grant agreements given to the Town by the Arlington & Winchester Street Railway Co. in 1897, was carried to the Full Bench of the Supreme Judicial Court. The Honorable Court decided that Chapter 784 of the Acts of 1913, under which statute the Public Service Commission was organized, abrogated all fare agreements made between street railway companies and towns, and that entering into this agreement the Selectmen acted as public officers and not as agents of the Town, and that the Legislature had the power to and did abrogate these agreements by that statute.

A bill in equity by Ira Shapiro was brought in which the Town was named as party defendant, seeking to reach and apply certain moneys which the defendant was holding as an award for one of the Massachusetts Avenue land takings. The Town's interest was merely that of a stake holder and after a trial the money was paid over as decreed by the Court.

The suits of Catherine Broderick, p. p. a., and William J. Broderick for damages growing out of a case of typhoid fever while a tenant in property in the rear of 1111 Massachusetts Avenue was tried and the Court decided in favor of the Town.

The case of Elizabeth M. O'Leary against the Town for water damages growing out of a break in the water pipe on Lowell Street was tried before a jury who awarded her \$50.

The case of Margaret Hayes for damages growing out of an

alleged defect on Wyman Street was tried and a finding made in favor of the Town.

The bill in equity of Louis Balboni seeking to have a sewer contract set aside and for damages, claiming that he was the lowest bidder and so entitled to the work, was, after numerous continuances, dismissed by the Court.

The following cases are now pending before the various Courts:

The suit of Frank Reynolds for injuries sustained by fall of poles on Broadway.

The petitions of Ellen Tierney, Patrick F. Toye, and Pelligrino DeNapoli *et al.* for assessment of damages growing out of the taking of their lands for Summer Street Extension.

The case of Almire Whittemore *et al.* for the taking of land for the widening of Massachusetts Avenue between Water and Central Streets.

The case of Agnes Monahan for injuries growing out of an alleged defect in the highway at the corner of Park Street and Massachusetts Avenue.

During the year there was a default in the contract on the Summer Street Extension, which matter was taken up with the Maryland Casualty Co., surety on the contractor's bond, and after numerous conferences the matter was adjusted on the payment of \$1300 to the Town by the Maryland Casualty Co.

The Town was represented before the Legislature on various matters affecting its interests, the principal ones being the bills regarding the giving of additional powers to the Public Service Commission to order in street railway locations for the purpose of making or connecting through routes.

The Town was also represented before the Public Service Commission relative to the petition of some inhabitants of Winchester for a through route from Winchester to Harvard Square. After conferences and a hearing the Public Service Commission expressed their opinion that a through route should be established and ordered the street railway companies to take the necessary steps to give that order effect.

The usual routine work was attended to.

Respectfully submitted,

PHILIP A. HENDRICK, *Town Counsel.*

## REPORT OF THE PLANNING BOARD.

---

### ORGANIZATION.

The Planning Board of 1916 is organized with Henry W. Hayes as Chairman and Jacob Bitzer as Secretary, the other members being Harry G. Porter, James P. Parmenter, Cyrus E. Dallin and Robert W. Pond.

The Board has held thirteen meetings during the year and considered the following subjects:

New street from Massachusetts Avenue to Mystic Street, west of Central Street; building lines on Massachusetts Avenue; plan of Interlaken development; preservation of the shores of Mystic Lake; Sucker Brook sewer; improvement of Sucker Brook, and the problem of school house locations.

#### NEW STREET FROM MASSACHUSETTS AVENUE TO MYSTIC STREET.

A proposed new street from Massachusetts Avenue to Mystic Street, west of Central Street, was the first matter to occupy the attention of the Board this year.

The Town Engineer was instructed to prepare a plan and estimate of the cost of building this street. This plan, as prepared by him, was considered by the Board and submitted to the Joint Board.

There has been a great demand for this cross connection for some years and this demand has increased rather than diminished. It is the opinion of the Board that the matter should be considered by the Town in the near future with a view to economy in construction, in the taking of land, to the elimination of grade crossings and to a possible solution of the street railway problem, as it would create a better and safer connection between the Bay State and Elevated Street Railways than any other suggested.

#### BUILDING LINES ON MASSACHUSETTS AVENUE.

Last year the Board called the attention of the Joint Board to the necessity and the advantage of establishing building lines

on Massachusetts Avenue, from Academy Street to Lowell Street. The matter was presented to the Town by the Joint Board and the Town voted to refer the matter back to them, with instructions to report at a future meeting the estimated expense to the Town which would result from the establishment of these lines. The Planning Board is still of the opinion that it would be to the decided advantage of the Town and of the abutters to establish these lines and suggests to the citizens that they judge the matter fairly and also study the experience of other towns which have established these lines. The following statement, quoted from the report of the Winchester Planning Board dated December 31, 1915, will show what Winchester and other towns are doing in connection with building lines.

“We believe that this Act provides a means for making necessary widenings with the least expense to the Town and the least hardship to the owners of property. It will be observed that the imposing of a building line does not take away the right to use one's land except for building purposes. Lawns, shrubbery, walks and fences may be kept irrespective of the building line. It is hardly more than a notice to the owner that some time in the near or distant future a front strip of his land, varying from a few feet to forty feet (limited by the Act to twenty-five feet), depending upon the necessity, may be taken for highway purposes, and until that time the strip is to be kept clear of substantial structures which would be costly to remove. There is nothing new in the principle of the Act. A set-back restriction is very commonly found in residential property of good class. In many of the streets of Winchester there are such set-backs. The only difference is that, instead of being a private restriction and enforceable only by the owners of lots which are affected thereby, it becomes a public regulation enforceable by the Town. The Act has been adopted in the cities of Boston, Cambridge, Lynn, Medford, Newton, Quincy, Revere, Springfield, Woburn, and towns of Brookline, Dedham, Milton, Norwood, Watertown, Winchendon.

“It has been used in the metropolitan district by the town of Watertown, which during the last two years has placed a building line on several of its streets, and by the city of Quincy, which has established a fifteen-foot set-back for one thousand feet on School Street, one of the important thoroughfares of the town. In both

Watertown and Quincy no damages have been claimed by property owners, who are evidently content to wait until their land is actually taken for a physical widening of the street."

#### PLAN OF INTERLAKEN DEVELOPMENT.

During the summer there was referred for approval to this Board a plan of Interlaken, a new development located on the northerly side of Mystic Street and near the dam between the upper and lower lakes. The plan showed house lots with narrow frontage, streets with steep grades, and no provision for future development of the lake shore, therefore, the Planning Board did not approve this plan as it is injurious to the best interest of the Town to encourage development of this kind. The Board has recommended and endorsed a movement which will result in a resolve being presented to the next Legislature directing the Metropolitan Park Commission to investigate and report on the advisability of taking over the lower lake into the Park system and also on the necessity of restricting future building within a certain area of the shore, so that at some future time it may be possible to extend the boulevard along the Arlington side of the lake. This action will also prevent encroachment on the lake shore by land speculators with developments that will destroy its beauty.

#### SUCKER BROOK SEWER.

The Board desires to call the attention of the Town to the great necessity of proceeding at once to take steps to build the Sucker Brook sewer. Numerous complaints have reached Town officials in regard to existing conditions at Brattle and Grove Streets. The State Board of Health also has received complaints from physicians and citizens and our local Board of Health. The Board is of the opinion that it would be unwise to expend any of the Town's money on temporary construction to overcome this nuisance, therefore, the town officials have urged the Metropolitan Water and Sewerage Board to construct this sewer at once. A bill will be introduced into the Legislature authorizing the Metropolitan Water and Sewerage Board to make a study and plan of this sewer and report May 1, 1917. This will start the

preliminary work and will give the Metropolitan Water and Sewerage Board authority and an appropriation to proceed with the plans. The fact that the town of Lexington is rapidly connecting up with our present sewer may bring about a condition whereby our Massachusetts Avenue sewer will no longer be adequate to serve the district for which it was built. Under a former Act, the Metropolitan Water and Sewerage Board has authority, when this condition arrives, to proceed to build our Sucker Brook sewer. Under these conditions it seems that the Town may safely assume that work on the sewer will be started during the year 1917.

#### IMPROVEMENT OF SUCKER BROOK.

Sucker Brook from the Lexington line to the lower Mystic Lake should be improved. There are five basins or ponds which are no longer used for storing water for power purposes, and in these basins the water is allowed to flow over an extended area, thus forming unsightly pools which furnish breeding places for mosquitoes. The banks of the brook have been allowed to cave in, thus in some places not only obstructing the flow of the water but making new channels for the brook.

In view of the fact that the brook is mostly located in private land and is therefore generally under no public control, its regulation is a difficult matter and the only feasible method seems to be through a taking of the land necessary for its straightening and improvement. Such a taking might be made for sewer purposes, the land taken to be adjoining the taking which will probably be made for the new metropolitan sewer and the two takings could be used for a walk or drive.

This Board recommends that the Board of Public Works be authorized to make studies of the above project and to co-operate with the Metropolitan Water and Sewerage Board.

#### SCHOOL PROBLEMS.

The various school problems to which the Board alluded in its report of last year are now in the hands of Committees. Pending the report of those Committees the Board makes no further suggestions at this time.

The Board does not desire to make any extended recommenda-

tions in regard to future development. Taking into consideration the increased expenditures called for every year it is of the opinion that those improvements now under consideration and construction should be completed before embarking on any large new improvement.

## REPORT OF TREE WARDEN.

---

I herewith submit my report as Tree Warden for the year ending December 31, 1916.

The remarkable development of foliage which has characterized shade trees this season has not been observed for some years. The foliage has not only been unusually abundant but there has been also a healthy coloration and the development of unusually large leaves. The heavy snowfall during the winter and the extensive showers occurring in the spring and early summer were sadly needed by vegetation in general. A season characterized by this weather and a high humidity is also favorable to the development of certain fungi. The Maple Leaf Spot, "Gleosporium," which attacks the leaf petioles and veins, causing a wilting of the foliage, has been decidedly more common than usual and, as a preventive this spring, I would advise that all hard maples be sprayed early with Bordeaux Mixture.

### PLANTING.

Three hundred and sixty-four trees were planted on accepted streets, and guards were placed around all but fifty of them. Those trees that were left unprotected were more or less mutilated by the mischievousness of boys and horses and in some cases broken off close to the sidewalk. Owing to the advance in wire I was unable to furnish all the trees with guards. In all cases of mutilation of trees, where I could place the blame, I compelled the guilty ones to settle the damages. The total amount collected by the Town for damages was \$175.

### INSECTS.

The Leopard Moth is still with us and as I have stated in previous reports it is the most difficult and destructive pest that we have. Wherever we have found its presence we have treated it in conjunction with our trimming work. The scarcity of the Elm Leaf Beetle has been very noticeable during the past

two seasons, however the punctured leaves in some localities have indicated its presence and a few egg clusters have been observed.

#### TRIMMING.

A large amount of trimming was done this year, owing to the ever-increasing amount of dead and dangerous limbs caused by the Leopard Moth. This work is slow, costly, and dangerous but for the safeguard of the Town it should be done.

#### REMOVAL OF TREES.

During the year, nineteen large dead trees, one large live tree on which there was a hearing, and thirteen small trees were removed. The causes of the loss of our trees are the attacks of the Leopard Moth, escaping gas, and lack of nutrition due to our improved method of building streets. With a tarvia street and a concrete sidewalk it is impossible for any moisture or nutrition to get to the roots of our large trees.

#### CONCLUSION.

In order to complete the planting of trees on streets that were started last year and to put trees on streets that applications have been received for, it would require over 300 trees to be planted on the following streets: Palmer, Wyman, Marathon, Cleveland, Thorndike, Magnolia, Melrose, Egerton Road, Harlow, Everett, Grafton, and Raleigh Streets. I would recommend that \$1250 be appropriated this year for planting and purchase of 300 trees and for the removal of dead and dangerous trees and for the general care of existing trees.

The following shows the receipts and expenses, also the nature and location of work done by this department the past year:

## REPORT OF BOARD OF PARK COMMISSIONERS.

---

The Board of Park Commissioners respectfully submits the following report:

For several years past the amounts appropriated for the use of the Board have been little more than sufficient to cover the expense of a general supervision of the parks under its care; consequently, very little has been done in the way of improvements. For the next year the Board has asked for an increase in the amount appropriated, in order to make many needed improvements.

At Menotomy Rocks Park, in 1914, a number of white pine trees were set out; a large proportion of these trees are alive and making good growth, but more trees of different varieties should be planted this year to take the place of those destroyed by the brown-tail and gypsy moths, and the moth hunters.

The pathway, for two hundred feet or more, should be thickly graveled, and the culvert over the brook should be thoroughly repaired; also the underbrush, which has grown rapidly, should be cut out in several sections of the park.

Meadow Brook Park is still in process of evolution. Quite an area at the entrance and on the easterly side of the brook has been filled roughly to grade, but a large part of the park is still in its natural state, a swampy meadow, and until this is filled and brought up to grade very little can be done to beautify it.

The newly acquired park on the top of Turkey Hill, although at present apparently a waste of rocks, will, in the judgment of the Board, become in time a very popular resort for the residents of the Town. A beginning should at once be made in the planting of trees and followed every year until this hill is covered, as it was once, with a heavy growth of wood.

The several triangles and spaces under our care have begun to show signs of neglect, and much labor will need to be expended in order to bring them into harmony with our beautiful civic center.

WILLIAM E. LLOYD,  
GORHAM H. DAVIS,  
WILLIAM W. CROSBY.

## REPORT OF BOARD OF PUBLIC WORKS

---

The Board of Public Works herewith submits its annual report for the year ending December 31, 1916.

At the Town Meeting held on March 6, 1916, Arthur Birch was elected a member of the Board vice Philip Eberhardt, whose term of office then expired. The Board organized on March 13, with the choice of Henry S. Adams as Chairman.

Mr. Adams resigned as Chairman on October 2 and Mr. Birch was elected to that office.

### APPOINTMENTS.

At a meeting held March 13, 1916, Harold N. Willis was appointed Clerk of the Board. On March 29, Herbert S. Clark was appointed Superintendent in charge of Highways, Sewer and Water, George E. Ahern, Assistant Superintendent, and Harold N. Willis, Water Registrar and Bookkeeper. These appointments were from April 1, 1916.

### MEETINGS.

The regular meetings are held each Monday evening. During the year the Board held fifty-two regular and three special meetings.

The following are the net expenditures made under the direction of the Board:

Highway Division	\$44,998.34
Sewer Extensions	21,632.39

## HIGHWAY DIVISION.

In the spring of the year it became apparent that with the appropriation available it would be inadvisable to reconstruct or resurface any streets and no work of this kind was attempted. The activities of the department were confined to patching, repairing, top surfacing and cleaning the streets; \$16,467.98 was spent on this class of work.

The sidewalks of the Town received more than ordinary attention, \$3,816.05 being spent in improving the condition of gravel walks and \$2,582.64 on the construction of tar sidewalks.

Catch basins were systematically cleaned and the condition of the storm drains looked into.

Summer Street Extension was completed to the rough grade from Summer Street, near the corner of Brattle, to the Lexington line, \$18,937.94 being expended from a special appropriation made for this purpose and \$3,932.21 from the regular Highway appropriation.

Thirteen streets were accepted by the Town at the March meeting, 1916, eleven of which streets were completed and a certain amount of work done on the other two at a cost of \$22,188.47.

The value of the property controlled by the Highway Division, January 1, 1917, amounted to \$27,098.16, classified as follows:

One hundred and ninety-nine house connections have been made with the mains at a total cost of \$4,753.56, cost per foot, 51 cents.

The total cost of maintenance for the year was \$1,988.05.

The value of property controlled by the Sewer Division, January 1, 1917, amounts to \$4,922.64, as follows:
